- ◇ Travel clinic
- ◇ and more

● Appointments

With the GPs

Appointments of 15 minutes are allocated to each patient. If you think your appointment might take longer, please request a longer appointment time.

With the Specialist

A referral letter from your GP is required. Simply send your referral to our centre, and our friendly staff will contact you for an appointment.

With the Physiotherapist & Psychologist

No referral letter is required. Private health insurance rebates are available. Care plans from your GP are accepted.

At times, we experience delays beyond our control. If this will be a problem for you, please see reception for suggested options. Alternatively, call prior to your appointment and we will advise you of any delays.

● Well Women's Health Check

A great opportunity is available for women of all ages for a comprehensive women's health check tailored to your needs. It can include cervical screening tests, menopause, breast health, bone health, cardiovascular screening, and much more. *(If you are aged between 45 and 49 years, you could be entitled to a bulk billed health assessment. Please call to discuss.)*

● Home visits

The GPs may do home visits for patients who are unable to attend the centre. Please call the centre to ask for more information about this service.

● Results

The centre will let you know when your test results are available and will make an appointment for you, if necessary, to discuss the results with your doctor. Reception staff are not able to pass on clinical test results and are authorized only to pass on your doctor's comments

● Prescriptions

Prescriptions may be written without an appointment if you have seen the doctor recently and have previously been prescribed the medication. A fee of \$10.00 may be charged.

● Recalls and reminders

The centre uses a computerised system to send helpful recalls and reminders via SMS or mail to patients about suggested follow-up tests and visits. If you do not wish to participate in this recall and reminder system, please advise your doctor or the receptionist.

● Consultation fees

Fees are based on the length and/or reason for the consultation. This centre does not routinely bulk bill. However, if you are seeing one of our GPs, we offer a \$15 discount for Pensioners and Health Care Card holders. Patients are asked to pay for their visit in full on the day of the appointment.

EFTPOS facilities are available and Medicare claims can be submitted on your behalf at the centre. Any rebate, if applicable, will be reimbursed to you directly from Medicare. Cheques are not accepted.

For more information about costs, please call to discuss with the receptionist.

If a referral to a specialist is required, there may be out of pocket expenses associated with specialist consultations.

● Immunisations

Our Nurses and GPs provide a comprehensive immunisation service. We stock the complete range of government funded vaccines which includes childhood immunisations, immunisations for the pregnant couple, influenza, pneumococcal and shingles vaccines. We stock many non-funded vaccines and can provide immunisation advice tailored to your specific needs.

● Shepparton Travel Clinic

Shepparton Travel Clinic is a specialised travel clinic located at the Shepparton Women's Health Centre. If you are travelling overseas or have returned unwell, come and see our Travel Doctor. If travelling overseas, depending on your itinerary plans, we will set out a personalised list of recommendations and advice regarding your travel. On-site we supply and provide competitively priced vaccinations for you.
